

Family ULTRASCAN

Product Partial Discharge Monitors

Description Magnetic Gooseneck Stand

Part Number P296.010.030

Variants .

The magnetic gooseneck stand allows rapid installation and accurate positioning of all ULTRASCAN ultrasonic microphones. Its magnetic base ensures there is no need for invasive fixing or complex mounting brackets on switchgear. Microphones are held in the friction clip. The stand is 300mm high and can be bent to most desired positions; the base is 63mm diameter.
